Pricing surcharges

Standard Surcharges

		Ex VAT prices per parcel
Non-machineable parcels	Any parcel that does not comply with one of the standard parcel specifications set out in our terms and conditions of sale requires special handling.	€6
Unacceptable parcels	As a matter of course, unacceptable parcels must not be dropped off at La Poste. For all delivery methods, shipments that do not comply with the conditions for machineable or non-machineable parcels, as set out in the terms and conditions, will not be accepted into the postal network. Parcels will be considered unacceptable for the following reasons: - weight - wrapping - size - packaging	€50

		Calculation method
Fuel Surcharge (FS)	The Fuel Surcharge is a surcharge linked to fuel prices. Depending on the routing method used to ship the parcel, the customer will be charged a fuel price adjustment for routing by road or plane. This coefficient is applied to the billed amount excl. VAT, after discount (optional services, pricing surcharges, miscellaneous costs, duties and taxes excluded) as a percentage which changes every month. The FS is available on www.laposte.fr/colissimo-entreprise*	Percentage variable on a monthly basis
Volumetric weight	The volumetric weight is applied to parcels to be shipped internationally (list of applicable countries at www.laposte.fr/fiches-pays-colis*) and to French Overseas Territories by air. La Poste will apply the price for volumetric weight if the latter is greater than the dead weight of the parcel.	LxWxH (in cm)/5000

*Free consultation, excluding connection and communication costs of the chosen operator.
